

# REWARD

## LIVE LOWFIN CHUB

### \$15 PER FISH

Paepae o He'eia is a nonprofit organization at He'eia fishpond working to support sustainable local food sources. We are striving to improve our understanding of Hawaii's ecosystems. These Nenuue will be used for study and feeding trials with invasive limu.

There are several different species of nenuue in our Hawaiian waters and we are looking specifically for the Lowfin Chub. The easiest way to identify this particular nenuue from the others is to observe the angle of the anal fin is directly in line with the top of the tail fin.

**Seeking Nenuue  
( Lowfin Chub )**

**\$15 per fish caught  
and delivered**

**Live and Healthy  
Juveniles  
( up to 16" )**
